Wellness

Wellness is an active process of becoming aware of and making choices toward a healthy and fulfilling life. Wellness is more than being free from illness; it is a dynamic process of change and growth.

“...a state of complete physical, mental, and social well-being, and not merely the absence of disease or infirmity.”

—The World Health Organization

WEL-BERRIES GOLD

Packing : 750 ML.

Daily Needs

Let's start: Physiological needs (Food, water, Rest): The base of the triangle: It is the most important thing in life without which we cannot survive.

Our bodies need normal intakes of food for the subsequent reasons:

- To produce strength to allow us to breathe, think & move
- To grow / reproduce
- To carry out repairs (e.g. To heal a cut for your arm or a damaged bone)

The meals we devour is made up of 3 major kinds of nutrients:

- Protein
- Fat
- Carbohydrate

Agriculture

Agriculture is the science and art of cultivating plants and livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The history of agriculture began thousands of years ago.

Agricultural marketing comprises **marketing** of food grain, commercial crops, plantation crops, horticultural produce and semi-processed products.

WEL-KISSAN SHAKTI

Composition:

It is a high quality organic (bio stimulant) product made from plant extracts. Different plant extracts are used in this, it is completely natural and provides abundant supply of all types of nutrients required for crop growth. As a result, the crop remains healthy and grows well.

PACKING

- + 1L.

KEY BENEFITS

1. Soil fertility increases and the land becomes fertile.
2. Increases the potency of hormones (enzymes).
3. Increases the amount of chlorophyll in the crop.
4. Helps in maintaining the pH of crops.
5. Increases the immunity of crops.
6. Helps to increase the number of flowers and fruits.
7. The pH of the soil is maintained at a suitable level.
8. Improves soil texture.
9. The number of earthworms increases in the soil.
10. The number of white roots increases and become longer and thicker.
11. Increases crop quality.

DIRECTION FOR USE

- + For spray 2 to 3 ml per liter water
- + For drenching 5 to 10 ml per liter water
- + For Seed Treatment 5 ml per liter of water with chemical fertilizers 1 liter per acre with organic manure

WEL SIZER

Wel Sizer is a highly effective bio stimulant containing L-Cysteine, folic acid, and nitrophosphate.

Packing: 1 Litre

Key Benefits:

- It is useful for increasing the size of the plant's fruits.
- Helps increase the number of flowers and reduces flower and fruit drop.
- Aids in increasing the size and weight of fruits.
- Enhances the natural colour and shine of fruits.
- Improves the flavour and shelf life of fruits.
- Promotes sprouting and flowering.

Dosage:

- For spraying mix 3 to 5 mg in 1 liter of water.

WEL TELYA SHOOTER

Packing: 1 Litre

Key Benefits:

- Telya Shooter is a plant extract product made from naturally derived alkaloids.
- It is effective against the bacterium *Xanthomonas axonopodis* pv. *Punica*, which causes the bacterial disease Telya in pomegranate crops.
- Telya Shooter helps in controlling this bacterial disease in pomegranates.

Usage Instructions: Mix 2 ml of Telya Shooter per litre of water and spray on the crops. Begin spraying Telya Shooter every 15 to 20 days once the pomegranate plants start to flower.
Packaging: 1 litre

WELL KISHAN SHAKTI OIL

Packing:

500 gram

KEY BENEFITS

- Well Kisan Shakti Soil is an organic fertilizer product made from plant extracts and seaweed.
- It especially helps in balancing the amount of organic matter in the soil.
- Its use improves the texture and pH of the soil.
- With all the useful elements in the soil, the fungal growth is healthy and vigorous and the yield increases tremendously.
- The water holding capacity of the soil improves and the air in the soil remains intact due to the moisture in the soil.
- Root respiration takes place smoothly and the number of white and fine roots increases. Therefore, micro nutrients in the soil are easily and abundantly available to the crops.
- Since it does not contain any chemical elements, it does not harm the soil.
- On the contrary, it improves the health and balance of the soil and increases the yield.
- The action of biogenesis helps in growth. It helps in increasing organic matter in the soil and enhances the immunity of plants.
- Natural resistance to weather fluctuations and stressful situations increases.

DIRECTIONS FOR USE:

- 500 grams per acre by mulching, dip and follow up

WEL KISAN RAKSHAK

Packing:

- 250 ML

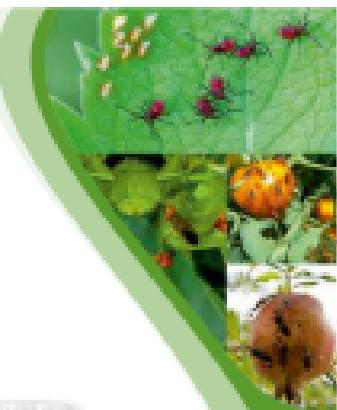

KEY BENEFITS

- Wel Rakshak is a product developed using enzyme blend technology.
- It protects crops from all types of sap-sucking pests by keeping them away from the crops. Examples include aphids, leaf hoppers, thrips, whiteflies, red mites, etc.

DIRECTIONS FOR USE:

Mix 2 ml in 1 liter of water and use for spray.

Packing- 250 ml

WEL DEE

Packing

- 250 GM

KEY BENEFITS

- ✓ Weldee is a high-quality organic fungicide made using enzyme blend technology from plant extracts.
- ✓ It is used as a preventive measure to protect your crops from any kind of fungal and bacterial diseases, such as downy mildew, powdery mildew, blight, black spots, and others.

DIRECTIONS FOR USE:

- Mix 2 ml in 1 liter of water and use for spray

WEL ACTIVATOR

- Packing : 250 ml

Key Benefits

Increasing the efficiency of all types of spray production

- Sticker
- super Spreader
- Penetrator
- catalyst
- Soil pH (K) indicator

Dissolve 0.25 millilitres of water in 25 ml of 100 litres of water and use.
Note: Wel Activator should be used in all sprays. For optimum results with herbicides, Wel Activator is essential.
Packaging 250 ml

WEL ACTIVATOR (pH Reducer)

Packing : 250 ml

Key Benefits

- The water used by farmers for spraying often has increased salinity, with pH levels sometimes reaching 7 to 9.
- As a result, the pesticides, fungicides, and herbicides mixed with this water do not deliver the expected results. In such cases, using Wel pH Balancer can easily bring the water's pH level down to between 6 and 7.

Quantity to use: First test the pH of water: 0.5 ml per liter of water. Put pH balancer in the well. Test the pH of water with a litmus. If the pH still seems too high, then use 1 ml per liter.

WEL VIRONIL

Packing : 250 ml

Key Benefits:

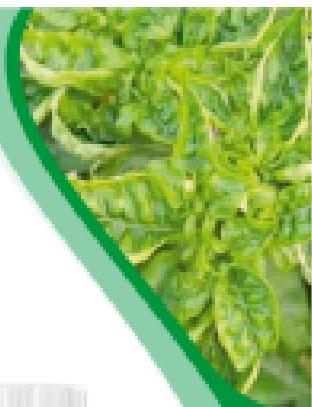

- Vironil is a product based on glycoprotein.
- It effectively controls viruses spread by sap-sucking pests in crops like vegetables and papayas, leading to healthy and vigorous new shoots.

Direction of use:

Mix 1.5 grams of Vironil per litre of water and spray uniformly. For best results, use Vironil in combination with Raichuk.

**WEL
VIRONIL**

WEL- WEIGHT FEED

Packing: 1 Litre

Key Benefits:

- It improves growth (15%) and yield (20%).
- Decreases the death rate.
- Helps in recovery from illness or stress.
- Improves poor feather and nervous disorders.
- Improves liver metabolism and stimulates appetite.
- Prevents anaphylactic shock.
- Adjunct to antibiotic therapy.
- Stimulates natural immunity and liver.
- Protects kidneys.
- Prevents loss of adipose tissue in poultry.
- Used in liver disorders.
- Egg production, egg weight and egg quality are improved.
- Improved hatchability.

Quantities of use:

Poultry: For 100 birds, mix in drinking water:

Chicks: 5 to 6 ml daily

Growers and broilers : 15 to 20 ml per day

Layers and breeders : 15 to 25 ml per day.

Cattle and Horse : 25 ml twice a day

Calf Sheep, Pig, Goat : 15 ml twice a day

Rab : 1 to 5 ml per kg of feed.

WELCATTLE FEED

COMPOSITION

- + Chelated minerals & Vitamins combination for better productivity, growth in milk.

PACKING

- + Plastic Bag 1 kg

KEY BENEFITS

- Veal - Veal feed is a supplementary feed for animals. It contains vitamins, minerals, other micronutrients, proteins, amino acids, enzymes, probiotics and prebiotics, which help meet the nutritional needs of your animal.
- This feed helps in increasing milk production by 500 to 1000 ml per animal per day. It also helps in keeping them healthy.
- This helps to extend the lactation period of animals and achieve stable, sustainable milk production even under stressful conditions.
- This helps in increasing the fat content in milk and producing protein rich milk.

DIRECTION FOR USE

- + Large Animal / Cow / Buffalo: 50 gm daily
- + Small Animal / Calf / Sheep: 25-30 gm daily
- + To be mixed in regular feed
